

YETI STACKABLE ESPRESSO CUPS 4oz, 6oz - GOOD TO KNOW

DO THEY COME WITH LIDS?

The 4 oz. cups and 6 oz. mugs do not come with lids. The 6 oz. mugs are compatible with our small MagSlider™ Lid, sold separately.

WHY DON'T THEY KEEP MY COFFEE HOT AS WELL AS YOUR OTHER DRINKWARE?

With small capacity formats there is less stainless and vacuum insulation power, thus naturally will not perform as well thermally as our other larger formats. If you're not consuming quickly and want to maximize heat retention consider purchasing a small MagSlider™ Lid for the 6 oz. mugs.

WHY ARE THE 4 OZ. CUPS AND 6 OZ. CUPS CERAMIC-LINED

The 4 oz. cups and 6 oz. mugs will almost exclusively be used with highly acidic beverages like espresso and coffee.

WHAT IS DURASIP™ CERAMIC LINING?

Combining the classic look and feel of ceramic with the durability YETI is known for, DuraSip™ Ceramic Lining is fused to 18/8 vacuum insulated stainless steel, making it tough enough to take tumbles and keep on sipping. It features a nonstick, no mess interior that resists staining from highly acidic beverages like coffee, and like all YETI Rambler® Drinkware — it's dishwasher safe.

WHY IS DURASIP™ CERAMIC LINING ONLY AVAILABLE IN THE RAMBLER® 4 AND 6 OZ. CUPS?

These two formats' primary use is with acidic beverages like coffee, tea, and espresso.

WHY ARE THE 4 OZ. CUPS AND 6 OZ. MUGS ONLY AVAILABLE IN TWO-PACKS?

Just like adventures, coffee is meant to be shared. If you're outfitting your mobile coffee bar, it's best to load up so you have enough—and it also comes in handy to have a backup if one's dirty.

CAN I STILL PUT THIS IN THE DISHWASHER?

Yes, all Rambler® products are dishwasher safe.
